

Create that *'these people are everywhere'* feel for under \$650,.....

How to maximise the impact of personalised Sunshades.

The sunshades are not a gift for your customers but instead are to be used as a free giveaway to targeted and qualified recipients who park their cars each and everyday at places such as train stations, bus depots, shopping strips and centres, local schools, industrial areas etc. You shouldn't care if the person lives in your area or 10 suburbs away, all you want is the space in their car windscreen whilst they are parked in your area on a regular basis. All you need to do is identify those car owners and offer them a free sunshade to keep their car cool throughout the hot summer months. How? Spend a few hours one morning at your local train station, identify and qualify a target recipient to ensure they do park there regularly and that they would use the sunshade. Then simply offer the free gift and let the exposure start. Repeat this process at other hotspots in your area. Give away a few in each area and cover your market.

Exclusive to you!

Once you have ordered your personalised sunshades no one else in your area will be able to order them.

Minium order of 50.

.....thats only \$12.20 each (inc. GST & freight*).

* Add \$0.20; NSW country, SA country, QLD metro.
Add \$0.75; QLD country, WA metro & country.
